

Executive Biography

Kevin M. Burke

Vice President, Human Resources
Hemlock Semiconductor Group

Primary Responsibilities

- Human Resources leadership for all of Hemlock Semiconductor's global operations

Experience and Expertise

Prior to joining Dow Corning, Kevin gained a wealth of experience within the human resources field. Kevin began his career in human resources with Motorola in 1994. From 1998 to 2004, Kevin was a Director of Human Resources with General Mills. From 2004 to 2009, he was employed with Pulte Homes, Inc., where he served as Vice President of Operations, Human Resources Director and Director of Talent Management.

Kevin Burke joined the team in early 2009. He serves as the Vice President of Human Resources for Hemlock Semiconductor Group.

Education

- Bachelor of Arts in Communications, Michigan State University
- Masters of Arts in Labor and Industrial Relations, Michigan State University
- Masters of Business Administration, Northwestern University – Kellogg School of Management

Community Involvement

- Member of the Alumni Advisory Board for Michigan State University's school of Human Resources and Labor Relations
- Member of the Bay Area Business Leadership Network, a nonprofit organization focused on expanding opportunities for people with disabilities
- Kevin is an active member within his church community; he currently serves as an elder with the First Presbyterian Church in Birmingham, Mich., and has been an active volunteer with local missions and homeless shelters

Guiding Principle

"Management is doing things right ... leadership is doing the right things."

– Peter Drucker

About Hemlock Semiconductor Group

Hemlock Semiconductor Group consists of several joint venture companies owned by Dow Corning Corporation, Shin-Etsu Handotai and Mitsubishi Materials Corporation. Hemlock Semiconductor is a leading provider of polycrystalline silicon and other silicon-based products used in the manufacturing of semiconductor devices and solar cells and modules. Hemlock Semiconductor began its operations in 1961.
