

Executive Biography

Jeffrey L. (Jeff) Hempfling

Strategic Supply Director
Hemlock Semiconductor Group

Primary Responsibilities

- Lead the procurement activities of Hemlock Semiconductor Group
- Ensure Hemlock Semiconductor Group receives the maximum value for every dollar spent on goods and services
- Facilitate development and execution of procurement strategies
- Facilitate interaction between various functions and teams to maximize the contributions of Procurement
- Build a strong procurement function that meets the needs of internal customers
- Help to facilitate employee development and career growth

Experience and Expertise

Jeff Hempfling joined Dow Corning Corporation in 1986 and spent his first 15 years in the supply chains of various Dow Corning facilities in Midland, Michigan, Carrollton, Kentucky and Elizabethtown, KY. During this time, he held diverse roles including project engineer, manufacturing engineer, multiple team leader roles and site operations manager. In 2001, he moved into the Core Business where he held various product line manager roles and commercialization leader roles. Jeff began his current role in September 2008.

Education

- Bachelor of Science in Chemical Engineering, Ohio State University
- Master's of Business, University of Cincinnati

Community Involvement

- Active member of the Blessed Sacrament congregation in Midland, Michigan
- Volunteer work for Midland Public Schools
- Volunteer work for Midland Area Youth Programs

Guiding Principle

“Effective leaders are not afraid to challenge the traditional way of doing things to drive continuous improvement. They move fast and take smart risks, they are disciplined, and they follow up on commitments. Great leaders build high performing teams by having the right people in the right roles, communicating a clear vision, and removing barriers.”

About Hemlock Semiconductor Group

Hemlock Semiconductor Group consists of several joint venture companies owned by Dow Corning Corporation, Shin-Etsu Handotai and Mitsubishi Materials Corporation. Hemlock Semiconductor is a leading provider of polycrystalline silicon and other silicon-based products used in the manufacturing of semiconductor devices and solar cells and modules. Hemlock Semiconductor began its operations in 1961.
