

### Gary R. Homan

Executive Consultant

Hemlock Semiconductor Corporation & Hemlock Semiconductor, L.L.C.

### Primary Responsibilities

- ❖ Provides executive counsel for a world leading manufacturer of polycrystalline silicon used in semiconductor and solar applications

### Experience and Expertise

In 2010, Gary was named executive consultant for Hemlock Semiconductor Corporation and Hemlock Semiconductor, L.L.C. He joined Hemlock Semiconductor Corporation in 1999. He was responsible for sales and marketing activities across all geographic areas. Prior to that, Gary was employed by Dow Corning Corporation for 27 years. He held positions in Research, Product Development, Finance and Marketing. He is also credited as the inventor on 44 U.S. Patents and is the author of numerous technical and marketing publications.

### Education

- ❖ Associate of Science in Chemistry, Saginaw Valley State University
- ❖ Bachelor of Science in Chemistry, Ferris State University
- ❖ Executive Management Program, University of Michigan

### Community Involvement

- ❖ Gary has been involved in United Way as a past-chairman of the Loaned Executive Program. He is active in many sporting programs in the community. Gary is also on the board of directors for the Solar Energy Industry Association (SEIA) and serves on the SEIA's Policy Committee.

### Guiding Principle

"Believe in what you're doing and do what you believe, no matter how large the obstacles. Always remember to treat people as you would like them to treat you."

### About Hemlock Semiconductor Corporation and Hemlock Semiconductor, L.L.C.

Hemlock Semiconductor Corporation and Hemlock Semiconductor, L.L.C. are joint ventures of Dow Corning Corporation, Shin-Etsu Handotai and Mitsubishi Materials Corporation. Hemlock Semiconductor Corporation is a leading provider of polycrystalline silicon and other silicon based products used in the manufacturing of semiconductor devices and solar cells and modules. Hemlock Semiconductor Corporation began its Michigan Operations in 1961 and Hemlock Semiconductor, L.L.C. broke ground at its Tennessee location in 2009.
