

Michael Moen

Chief Financial Officer

Primary Responsibilities

Mike leads HSC's Finance, Information Technology and Portfolio Management Office teams and partners with other members of the Executive Leadership Team to achieve the company's financial plans and strategic priorities.

Experience & Expertise

Mike is a seasoned executive who has led both commercial and financial organizations, and who brings strong business acumen, deep financial expertise and a strategic emphasis to his role.

Prior to joining HSC, Mike worked for eight years at Hubbell, Inc., an American company headquartered in Connecticut that designs, manufactures and sells electrical and electronic products for non-residential and residential construction, industrial and utility applications. As Hubbell's Vice President of Finance, Electrical Products Business Unit, he was responsible for leading the finance function, driving improvement in operating margin, manufacturing efficiency and price realization. Mike also served as General Manager of the Wiring Device Kellems business unit for 4 years, where he led the sales, marketing, manufacturing and product design functions.

Previously, Mike worked for six years at Entegris, a global leader in advanced materials science headquartered in Massachusetts, as its Director of Financial Reporting and Assistant Controller, and spent 17 years at IBM in various financial roles.

Education

- **M.S. in Accountancy** — Appalachian State University
- **B.S. in Business Administration – Economics** — Appalachian State University

Hemlock Semiconductor Operations (HSC) is a leading provider of hyper-pure polycrystalline silicon and other silicon-based products used in the manufacture of semiconductor devices, solar cells and modules. At HSC, we're passionate about silicon-based technology and its unique potential to connect and energize the world we share. HSC's polysilicon enables customers to produce high-tech electronics and solar energy, and our efficient manufacturing process delivers products with an ultra low-carbon footprint. HSC began operations in 1961 and is owned by Corning Incorporated and Shin-Etsu Handotai.
